

Aim 3 real results Averaged zero occupancy

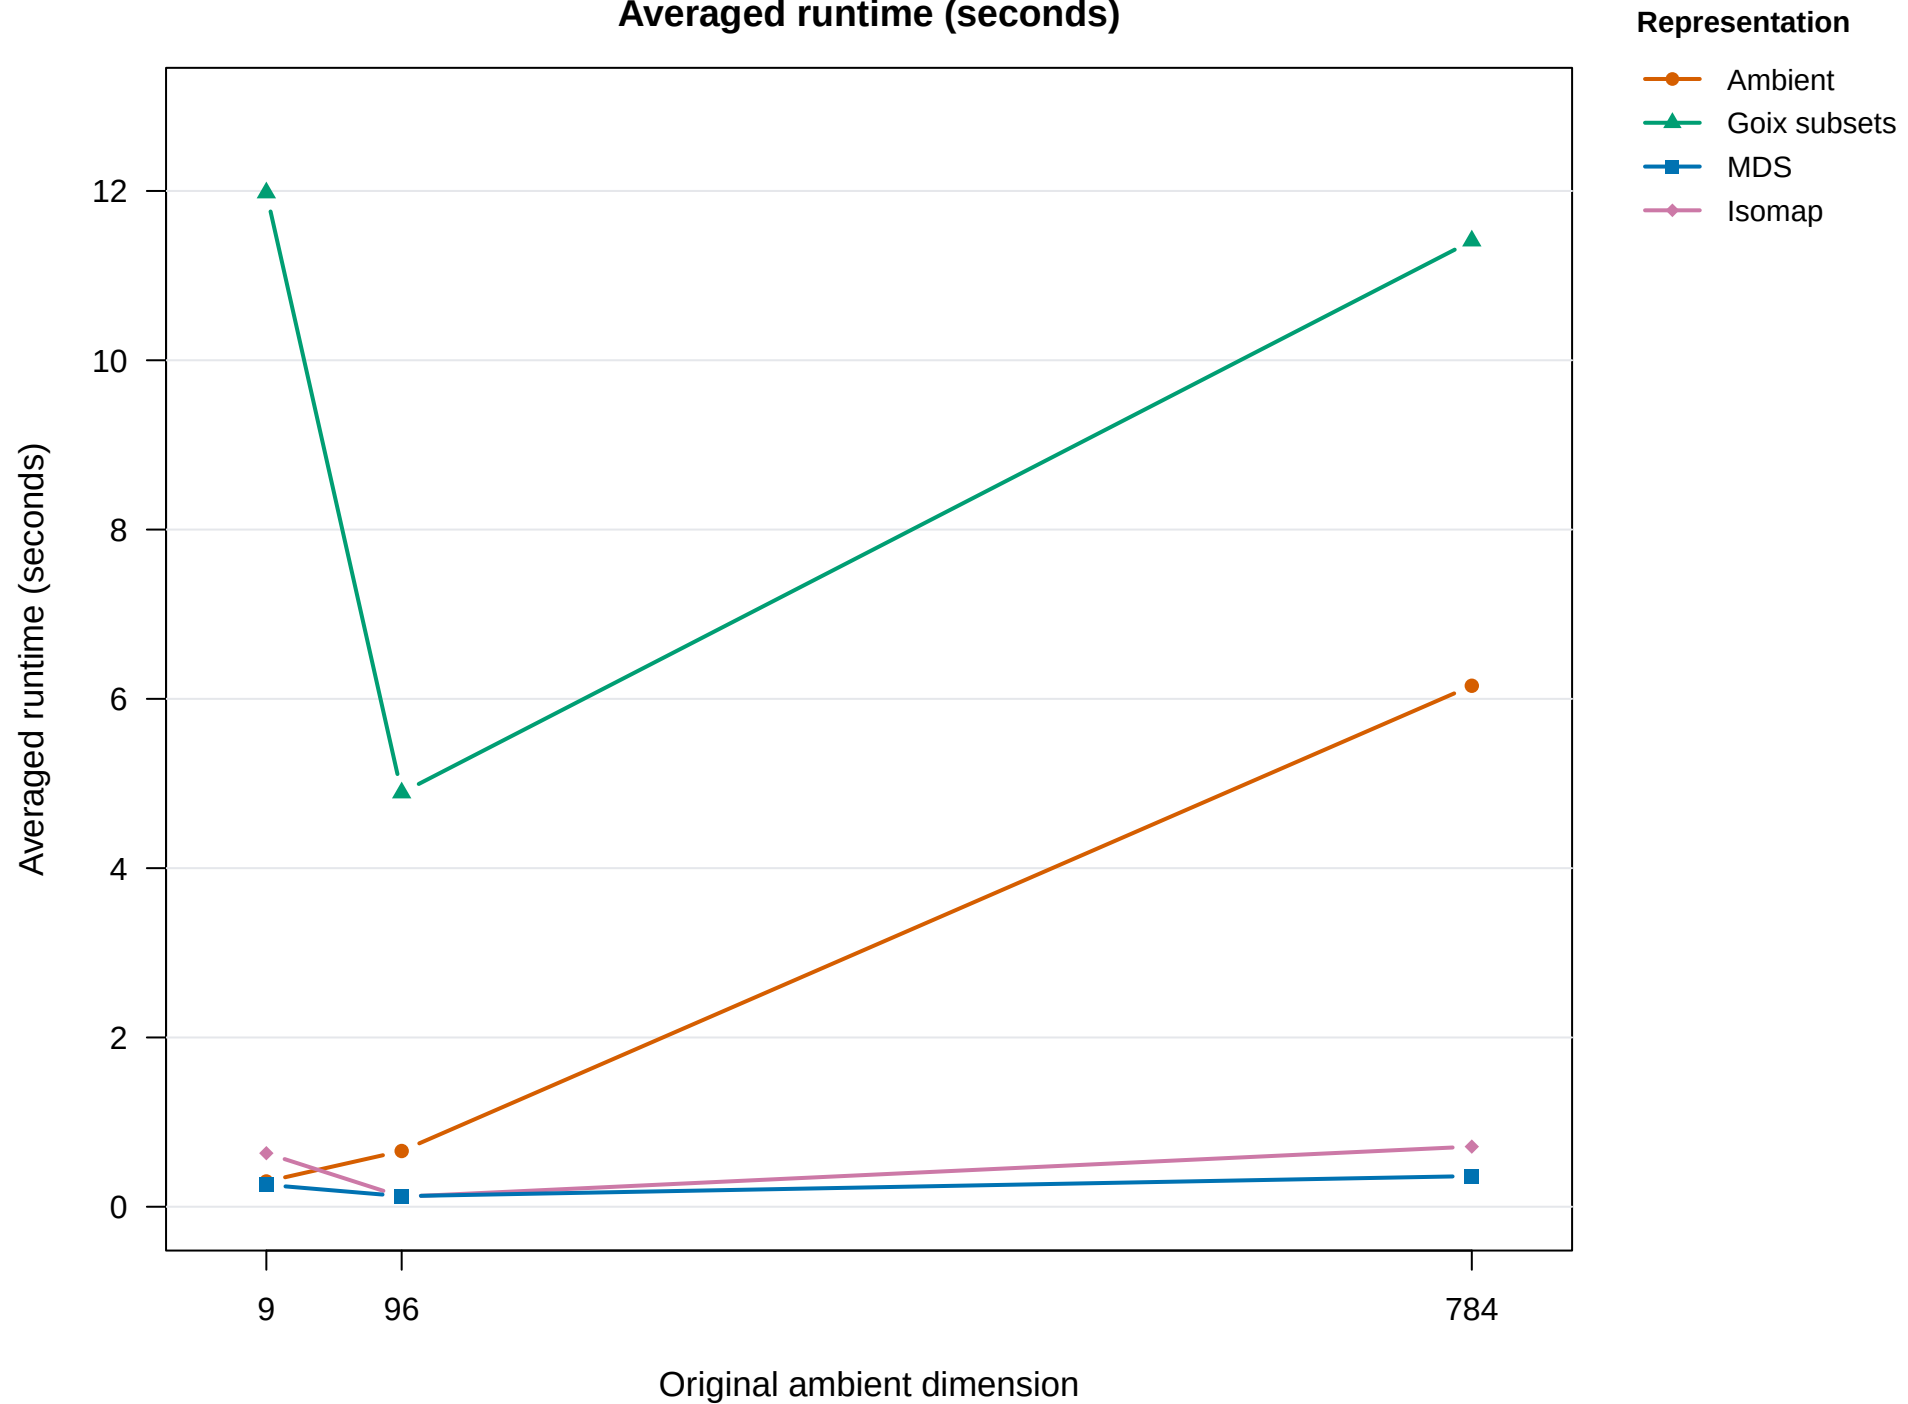

Each point is a group mean. Real-data sources also change with dimension.

Aim 3 real results Averaged low occupancy

Each point is a group mean. Real-data sources also change with dimension.

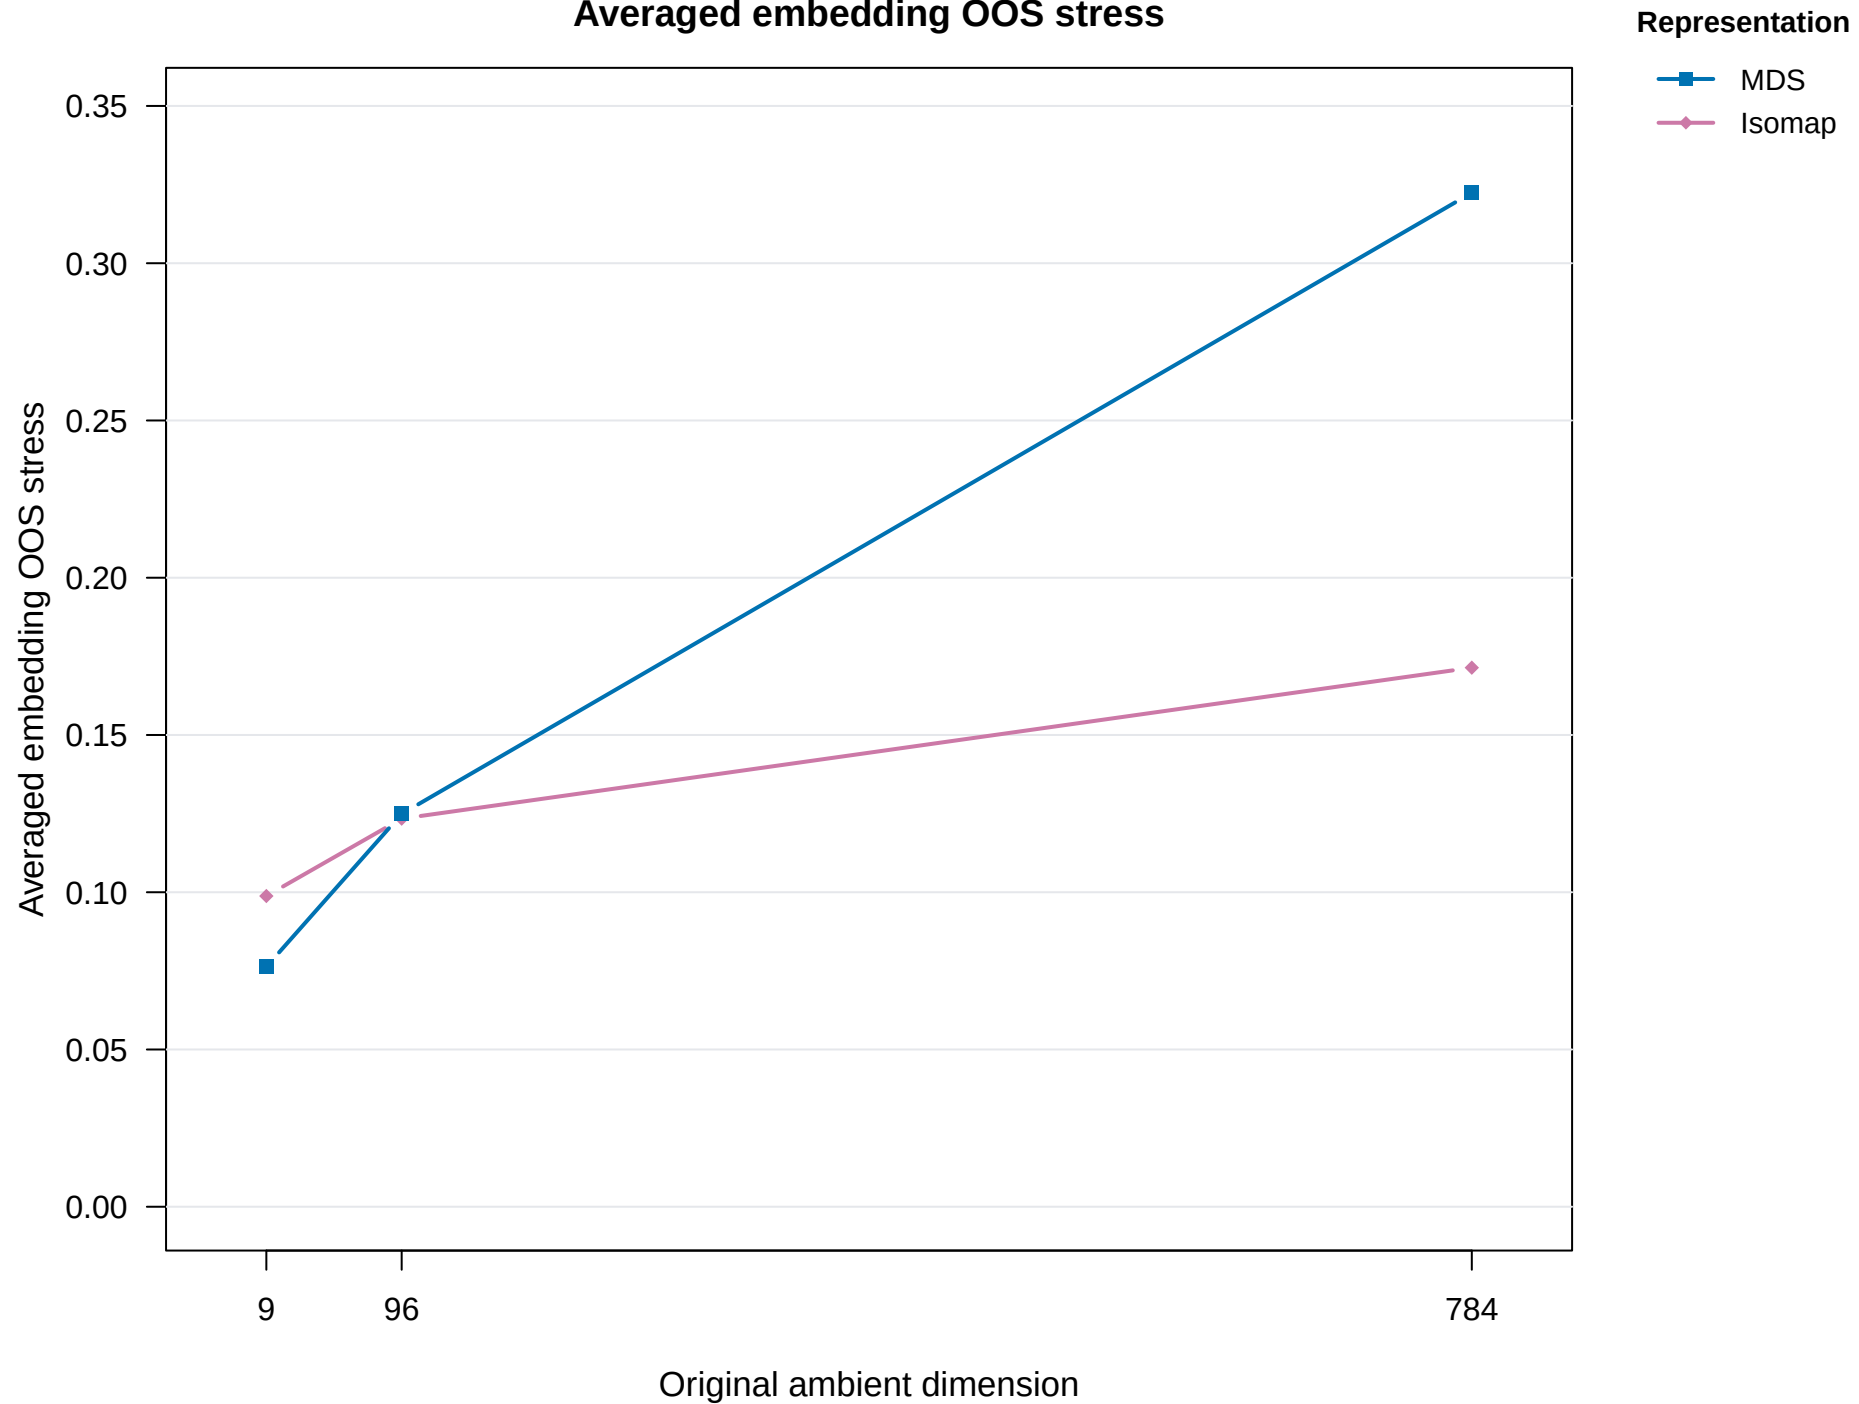

Aim 3 real results Averaged runtime (seconds)

Each point is a group mean. Real-data sources also change with dimension.

Aim 3 real results

Averaged embedding OOS stress

Each point is a group mean. Real-data sources also change with dimension.
